Re: Required Submission of Information
Safety Light Corporation Site
Bloomsburg, PA

Our response will be to the nine questions referred to on pages three through seven on the information package you submitted to Sentex. The response is being provided to the best of our ability.

Question 1

Sentex Sensing Technology, Inc., through its wholly owned subsidiary Sentex Systems, Inc., manufactured and sold portable gas chromatographs that utilized tritium sources (as a sealed source), purchased from Safety Light Corporation. When a chromatograph was returned to Sentex Systems for repair or disposal, the tritium foils were sent back to Safety Light for appropriate disposal.

The quantities of the tritium used were either 45 MC or 150 MC per instrument. The number of instruments sent back for disposal was very limited. Most of the systems that came back for repair did not need the replacement of the source.

On or about 1997, Safety Light stopped accepting these foils, and the company used another certified contractor for the foils disposal.

It is my understanding that Sentex Systems had an NRC license for dealing with this material, and all handling and disposal issues were inspected and approved by NRC inspectors who inspected the company from time to time.

Question 2

No

Question 3

Not applicable

Question 4

No

Question 5

Not applicable

Question 6

Sentex Systems, Inc., a wholly owned subsidiary of Sentex Sensing Technology, Inc. no longer exists. It was legally dissolved in or around 2004/2005.

Question 7

None

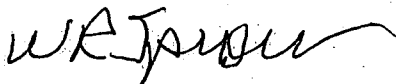

Question 8

None

Question 9

I have no knowledge as to the location of any records that may exist.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "W R Sprow", with a stylized flourish at the end.
